Profile

I am a 2nd-year Computer Science student looking for an internship that would allow me to gain experience in Web & App development. I've done some projects in this domain that allowed me to practice what I have learned and gain more knowledge in developing applications.

Education

09/2017 – 05/2020	**Houssam Eddine El Hariri High School**
09/2020 – 05/2023	**Computer Science at Beirut Arab University** ⧉

Projects

Designed a website that displays movies in a database ⧉
This project was done by a total of 3 group members. We first designed the database and created the tables and inserted the data using MySQL. We then developed the Website in order to display the results of the queries in a clear way to the user.

Developed a clone of Starbucks' homepage ⧉
This was a solo project where I decided to make a clone of Starbucks' home page.

Designed a clothing brand website ⧉
This project was done with 2 other group members where we worked on developing a clothing brand website that shows the clothes listed for sale along with their price and image. We also have multiple pages that include: checkout, contact, and log in.

Solving Pac-man puzzle using AI ⧉
This was a duo team project where we created a Pac-man that can play and win the game using AI. We used Searching Techniques like: Depth first search, Breadth first search, Iterative deepening search, and A star informed search in order to accomplish our goal.

Skills

Proficient in:
HTML
CSS
JavaScript
Java

Knowledge in:
PHP
MySQL
Python
C++
Git & Github

Languages

- Fluent in English & Arabic
